VRS & FMX Setup

Notes:	
	Add VRS to the active plugins list.
	To set up VRS, the display must be unlocked for RTK to use the Trimble VRS correction type.
	To use VRS, the GPS Setup tab must be configured with a Correction type of Trimble VRS.
From the Configuration screen, select VRS> Setup; VRS Configuration screen displays	
From the Device list, select the type of modem that is connected	
Select the VRS Server Setup tab	
Enter the required settings, as provided by DigiFarm
