Part #MD8200-13
Product Store Link

DigiFarm
Virtual Base Network

elevate
SLIM

Quick Reference Card
Ag Leader 6500/7500
Installation & Set-up

**1** Connect the Elevate and the adapter to the Port B connection on the Ag Leader 6500/7500 cabling

**2** Connect the Power Tee to the Can B power/ terminator connection on the Display cable

3 **Note:** Placement of the elevate modem on the cab roof is vitally important to performance. User must extend the entire length of the cable away from the receiver as shown below.

4 Tap the Setup wrench icon, then the [icon] icon

5 From the GPS/Guidance setup screen, select the wrench icon next to "Autodetect"

6 Ensure the Differential source is set to "RTK external"
Confirm RTK fix by returning to the home screen and checking for a green satellite icon
