Quick Reference Card AGCO C1000 and Beacon 4 Installation & Set-up

1

**Cable Installation** 

Mounting

Connect the Beacon to the AGI 4 with the adapter cable and black connector on the back of the receiver

- Use 3 screws supplied with kit and attach Beacon 4 to tapered part of bracket. Don't overtighten.
- 2. Use supplied alcohol swabs to clean a small section of the tractor roof.
- 3. Peel back the mounting plate adhesive strips and press onto roof.
- 4. The bracket will then magnetically mount to base plate.

Pair your Beacon 4.0 with the GR Tech

NBV1 NTRIP Client iOS App. Once paired your iPad will ask to download directly from the Apple App Store. See our App

## Note: Beacon 4 must be mounted vertical.

QRC for set-up details.
